

Health and Safety at Work Act 1974

Hazard Data Sheet – FO 52 07

PRODUCT REF: Morley Antiplas

COMPANY: Morleys Ltd,
Unit 2 Higher Walton Mill,
Higher Walton,
Preston,
PR5 4DJ

Tel: 01772 626700
Fax: 01772 627372

e-mail: sales@morleysltd.co.uk

PRODUCTS: Aerosol containing adhesive, classified as flammable according to the CPL Regulations

INTENDED USE: Spray applied adhesive

DESCRIPTION: Aerosol container filled with adhesive dissolved in volatile organic solvents with extremely flammable propellant

Contains:	<u>OEL (8hr TWA)</u>	<u>STEL (10min)</u>	<u>CAS NO.</u>
Dichloromethane	100ppm	250ppm	75-09-2

HAZARDS: Pressurised container

Flammable

PROPERTIES: Vapours heavier than air

STORAGE: Store in a dry location, at a temperature from 5 to 30 degrees C, out of direct sunlight

HANDLING PRECAUTIONS:

1. Use only in well ventilated areas to conform with the Occupational Exposure Limits defined in the latest edition of EH40. Particular attention to vapour concentrations must be taken in air conditioned buildings. Avoid breathing vapours.
2. Do not smoke. Do not spray on naked flames or any incandescent material.
3. Avoid contact with skin and eyes. If necessary wear impervious gloves (e.g. of neoprene or nitrile rubber) and goggles, (to meet BS2092).
4. When using do not eat or drink.
5. If used in a confined space, the vapour will cause drowsiness and local exhaust ventilation using flameproof equipment must be used. Alternatively suitable respiratory equipment must be worn.

FIRE PROTECTION INFORMATION:

Flash point	Below 0 degrees C
Extinguishing media	Carbon dioxide dry powder or foam

Hazardous decomposition products

Includes carbon monoxide and hydrogen chloride

CONVEYANCE INFORMATION:

Shipping Classification – Miscellaneous dangerous substances (UN Class 9), UN no. 1950, Shipping Name – Aerosols; Packaging Group III; Tremcard Number 20G27; IMDG Page No. 9022

EMERGENCY AND FIRST AID PROCEDURES

Eyes

Irrigate immediately with copious quantities of clean water for 5 mins and obtain immediate medical attention. Product will cause irritation.

Skin

Thoroughly wash affected parts with soap and water. Medical advice should be obtained if skin trouble develops.

Ingestion (swallowing)

Send the patient to hospital, or obtain medical attention immediately. DO NOT induce vomiting.

Aspiration (entry of liquid into lungs)

Send the patient to hospital or obtain medical attention immediately.

Inhalation (breathing vapour)

Remove from exposure, rest and keep warm. Obtain medical attention.

TREATMENT OF SPILLAGES:

Spillages are unlikely to occur due to the nature of the product.

WASTE DISPOSAL:

Do not puncture or incinerate aerosols, even when empty. After use, method of disposal should be that acceptable to local authority – landfill disposal is normally satisfactory.

LEGISLATION/GUIDANCE NOTES:

1. CPL Classification , Packaging, Labelling of Dangerous Substances Regulations 1984 (SI 1244).
- 2.The Aerosol Dispenser (EEC Requirements) Regulations 1977 (SI 1140).
3. Occupational Exposure Limits, H&SE Guidance Note EH40. HMSO (revised annually).
4. Control of Substances Hazardous to Health (COSHH) regulations 1988 (SI 1657).

The data and advice given apply only when the product is used for the stated application or applications. The product is not sold as suitable for any other application. Use of the product for applications other than as stated in this sheet may give rise to risks not mentioned in this sheet. You should not use the product other than for the stated application or applications without seeking advice from us.

If you have purchased the product for supply to a third party for use at work, it is your duty to take all necessary steps to secure that any person handling or using the product is provided with the information in this sheet.

If you are an employer, it is your duty to tell your employees and others other who may be affected of any hazards descibed in this sheet and of any preccations which should be taken.

Further copies of this sheet may be obtained on request.
