8. Exposure Controls and Personal Protection.

8.1 – Ensure provision of a well-ventilated area of work.

8.2 – Wear suitable protective clothing.

9. Physical and Chemical Appearance.

Appearance	Viscous off white fluid
Odour	Mild, distinctive acrylic
pH	8.5 – 9.5
Flash Point	Not Applicable
Ignition Temperature	Not Applicable
Explosion Temperature	Not Applicable
Boiling Point Range	100°C (as water)
Freezing Point Range	0°C (as water)
Specific Gravity	Approx. 1.05
Viscosity	Approx. 25,000 – cpts at 20°C

10. Stability and reactivity.

10.1 Stability – Stable under recommended storage conditions.

10.2 Reactivity – No thermal or hazardous decomposition or hazardous reactions when stored and used as designated.

11. Toxicological Information.

According to our present knowledge and practical experience this product is not expected to be harmful to health when properly used as designated.

12. Ecological Information.

Not established. Product should not be discharged to surface water.

Ingestion – Not evaluated but would expect gastric discomfort.

Eyes – Possible irritant.

Skin – Frequent or prolonged contact may cause irritation.

13. Disposal Considerations.

Dispose of material in accordance with national and local regulations for waste materials.

14. Transport Information.

Not classified as dangerous for transportation.

15. Regulatory Information.

Not classified as dangerous for supply. No labeling as required.

16. Other Information

Application – Flooring adhesive.
